

WHAT HAS DR. MCINTYRE DONE?

Kitchener Will Visit Canada

Calcutta, India, Oct. 19.—Upon the completion of his term of service as military commander in India, General Lord Kitchener announced to-day that he will return home to England by way of the United States.

"It is my desire," said the general, "to see Canada and the United States, the countries and their people that prompt me to include them in my itinerary."

Lord Kitchener will also visit Cuzco and Japan on the way, possibly travelling through Australia and New Zealand.

An immense volume of correspondence is pouring in upon the general. In England, urging him to take up reorganization of the British war office. There is no doubt but that he would be appointed to the post if he wished to accept the position.

RELIEF FOR FIRE SUFFERERS.

Detroit, Oct. 9.—Michigan cities aroused by the reports of the suffering of forest fire refugees in the Northern part of the state, to-day united in relief work. The mayor of all the cities issued proclamations asking for help, following the proclamation of Governor Warner and Mayor Johnson, of Detroit, yesterday, and municipal, trade and civic boards of all sorts laid aside all other business to collect and dispatch money and supplies. In Detroit \$5,000 was raised by subscription today and to-night the city council voted a similar sum from the city treasury to be applied in relief work. There was some contribution about \$2,000 worth of supplies of all sorts which are now on the way to the stricken districts. Other cities of the state are responding in like manner. Governor Warner and most of his staff are in the burned district, about Metz and Alton, inspecting conditions and superintending the work of relief. The D. and M. railroad, on which the town of Metz stood, has sent all its workmen to the site of the burned town and started in building houses for the refugees. At present 3,500 persons are living in tents, and are crowded in the living camps, they and forty of them in each house.

G. T. P. WILL BUILD STEAMERS.

Vancouver, Oct. 16.—That the Grand Trunk Pacific railway trade is back into the steamboat trade is the story which has gained currency among Vancouver shipping men during the last few days and is stated on good authority that the G. T. P. has already had plans submitted for the construction of two fine passenger steamers which will ply between Vancouver, Victoria and Prince Rupert. These vessels will be on the coast next year when they will immediately be put in operation.

Preferred Peace

Sofia, Oct. 19.—Bulgaria has backed down, according to Naum Pasha the Turkish ambassador, and not only has the probability of war, which seemed imminent last night, been eliminated, but an understanding between Bulgaria and Turkey is at sight.

The ambassador to-day practically admitted that yesterday the two countries were on the verge of war and explained that while his denial of the infiltration of the Turkish troops was literally true, it was equally true that mobilization had been previously ordered and then suspended. To France largely belongs the honor of opening the way for an understanding between Turkey and Bulgaria before it was too late.

Budapest, Oct. 19.—The emperor gave an audience today to the German ambassador Herr von Tschirsky, who presented a letter from Emperor William expressing his approval of the annexation of Bosnia and Herzegovina and assuring the Austrian emperor of Germany's support in the present situation.

It is stated that the German emperor has promised not only to maintain but military assistance to Austria-Hungary if it is needed.

WIND BLEW CAROUSE FROM TRACK.

Cheyenne, Wyoming, Oct. 19.—A carload full with passengers and attached to the Union Pacific freight train was blown from the track near Hermosa Junction tonight. Twelve men were killed outright and many others injured. The men had been at work when the heavy snowstorm, and were returning to the latter place when the accident occurred. The wind had been strong all day, and at sunset reached the velocity of a hurricane. The road crosses a deep canyon at the point where the car was blown over and the snow was piled up against the side of the embankment to the creek bed far below. The car was broken into splinters and the unfortunate passengers were pierced through and through by splinters or crushed under debris in the canyon. A relief train is being sent to the scene from Cheyenne.

NOTICE TO ELECTORS.

Any voter whose name has been inadvertently omitted from the lists may have the same put on by applying to the proper division of the ward. The names of the electors of the city up to two full days following day. The following are the names of the several enumerators in Strathcona, together with the hours and places where they may be consulted: Ward 1, Leopold Poller, Strathcona Carriage Co. office, 4 to 6 p. m. Ward 2, E. A. Prothero, 10 to 12 a. m. Ward 3, C. E. Morrow, Dominion Hotel, 12 to 2 p. m. Ward 4, A. M. Poller, Bank Block to 12 a. m.

Senator Talbot Insults Provincial Government

At Liberal Meeting at Calgary He Declares That Indians Will Not Receive Fair Treatment

Calgary, Oct. 19.—Another Liberal campaign meeting was held on Saturday night in the party's club rooms on eighth avenue, when Senator Talbot, T. W. Quayle, J. E. Irvine and others spoke.

The chair was occupied by Dr. Macdonald, who called Mr. Talbot to the platform after a brief introduction of the evening's programme.

Senator Talbot delivered the speech of the evening, which was for the greater part the old campaign speech on which the senator is said to have fought his battles during the days of his own political aspirations.

Before commencing he intimated that his coming to Calgary had not been long promulgated but that he had just come down to Calgary to speak a few words in favor of his old friend Dr. Stewart.

The matter of public lands and their administration was the first topic on which he dwelt and in order to get a good start he went away back to the early days of Canadian history and resurrected the tales of the clergy and the founding of the Hudson Bay Co. Then came the sale of the Hudson Bay Co.'s land to the Dominion government. He said that the pretense of the lands of the north-

SUICIDAL MANIA.

Des Moines, Iowa, Oct. 19.—Possessed with an unquerable mania for two or three years to kill himself, W. L. Culbertson, president of the First National Bank at Canby, this morning shot himself in the bathroom of his home and died immediately. The mania was the result of the suicide of two of his brothers within the last three years. Following his death, notice was posted on the doors of the bank that it was being placed in the hands of the comptroller of the United States treasury. There were \$20,000 in deposits in the bank.

REPORTED.

London, Eng., Oct. 19.—Considerable attention is attracted to a man with a wife and seven children, who are applying for assistance. He stated he was displaced from Canada five weeks ago, after working there for two years.

In reply to the magistrate he said he received a sudden and inexplicable order to leave, but subsequently stated he was told, because he could not show he had permanent employment, the quitters are being made because the West Ham guardians paid \$2 to cement the family through the Salvation Army, who apparently sent him to Oshawa.

Final Shipment Successful Of Buffalo Meeting

Calgary, Oct. 19.—Howard Douglas, Commissioner of Dominion Parks with headquarters at Banff, returned a few days ago from a three weeks trip to Ravalli, Montana, where he was engaged in looking after the round up of the balance of the Buffalo herd purchased by the Canadian government.

Mr. Douglas reports that the work which was delayed from various causes, is now well in hand and that he sees no reason at present why every one of the animals should not be safely landed in their future home in the Battle river park in good time before winter sets in. The animals, he says, are in splendid condition and of a superior class to any that were brought in last year.

After spending a few days at Banff attending to some business in connection with his work, Mr. Douglas will return to Montana to look after the final shipment of the buffalo to Alberta. He expects to have the special train with their animals at their destination the first week of November. The securing of this, the last great bulk of the old menagerie of the plain, by the Canadian government will prevent the extinction of the noble animals that once ranged the prairie from Texas to the Saskatchewan in countless thousands. The credit for the purchase is due largely to Mr. Douglas, who has been persistent in his efforts to affect the shipment of the entire herd and to provide accommodation that will assure a rapid increase of their numbers in the future. The call for this year at the famous park, considering the shipment of so many females such a long distance last fall, is considered very satisfactory and shows his been very little loss since the buffalo arrival.

UNLUCKY SCHOONER.

Vancouver, Oct. 19.—While off Victoria, on her way to Alaska, Saturday night, the steamer Cottage City Capt. Jansen, crashed into an unknown lumber schooner, completely demolishing her upper works, leaving Pursue W. Jones into the water, breaking the leg of an unknown Italian, and slightly injuring many other passengers.

George E. Starr, ex-chief of Capt. Elvander, bound for Billingham, appeared on the scene and took the passengers of the Cottage City on board and brought them back to Seattle. The Cottage City was picked up by the Whittaker from Billingham, and towed to Seattle.

Two unknown schooners, inward bound, were in by Oct. 19. The Cottage City crashed into the last boat just under the schooner's bowsprit. The entire upper works of the Cottage City were flattened out and all the occupants of the schooner, that portion of the ship were hauled from their berths.

REPORTED DEAD.

Paris, Oct. 19.—The Petit Journal says news has been received that Mordak, emperor of Afghanistan, is dead and that his death has been followed by grave troubles. The information lacks confirmation.

One of the most successful political meetings ever held in the White Mud district was brought off last night. The White Mud school house was crowded when the meeting was called to order.

The chairman called upon Mr. Bush and that gentleman dealt with some of the more glaring cases of maladministration by the government, and outlined the policy as laid down by Mr. Borden.

It was followed by Mr. Graham and Mr. Senator, the latter speaking in German.

Mr. Jas. Blain of Strathcona, was in attendance and asked the privilege of speaking, which was accorded. Mr. Blain volunteered to answer some of the points made by some of the previous speakers. He declared that, although the G.T.P. was costing more than had been expected this could not be charged by the government who had taken expert advice. He also declared that as the sole object of the G.T.P. was to take the shortest road from the Atlantic to the Pacific it was quite right that the route should avoid Strathcona. Mr. Blain also dealt with the Arctic expedition, which Mr. Bush had queried. He said the object of the expedition was to plant flags in the far north and also to quarry supplies for relief and he declared that he approved of the expenditure of \$348,495. He quoted some figures connected with an English and a German expedition but he omitted to tell his hearers the objects of these Arctic expeditions.

The length of journey they were expected to make and the crews, Mr. Blain controverted Mr. Graham's statement that the prosperity of Canada had not been out of proportion with that of the rest of the world, and endeavored to give his hearers the impression that Canada's prosperity had been unique and that the Liberal government were responsible for it. He also controverted Mr. Graham's condemnation of the immigration methods exposed in connection with the North Atlantic Trading Co., and he made the astounding statement that this company had the approval of Lord Strathcona. He further declared that Sir Wilfrid Laurier's method of offering the names in confidence to Mr. Borden was proper. He eulogized the Crow's Nest Pass deal and declared that all the charges made against the government were simply fairy tales.

In reply Mr. Bush tore Mr. Blain's arguments to tatters, and proved that the C.P.R. had granted lands at the time that had worth fifty cents an acre were proposed. He further proved that the present prosperity of Canada was due to the policy of Sir John A. Macdonald, who had made Canada a nation and got the first great transcontinental railway built. When Mr. Bush was done speaking it was quite obvious that Mr. Blain's intervention was a fortunate thing for the Conservative cause.

CURRENT COMMENT

The Bulletin has been for the last few months holding up its hands in hysterical horror at what it declares is the horrible wrong language used in denouncing graft which is used by the wicked Conservative party. Any direct language one would have would be offensive to the delicate sensibilities of the Bulletin and grate upon the fine ear of the Minister of the Interior. But this paper that is so persistent in applying for ladylike language does not scruple to use the most offensive, on Saturday the following pretty heading appeared on the front page:

CAMPBELL, LIAR
AND SLANDERER
and on reading the article we discover that the gentleman who uses this bovine verbiage is none other than the Minister of the Interior and the person against whom he uses it is Mr. Glen Campbell, the Conservative candidate at Dampier.

Speaking at Ottawa on Saturday last Sir Wilfrid Laurier again struck the familiar chord. "There has not been," he said, "one charge against myself or against any of my colleagues. We have done nothing which may cause any of our supporters to blush. Any charges made are against subordinates and perhaps the Cretes of Ottawa, who know the real state of affairs, may charge us with having been too generous to some Tories long in office. The campaign against us is a plaything politics. If the charges were against myself or my colleagues, then we could understand and meet them, but such a campaign of indiscriminate, unqualified charges would not be tolerated as an issue in Great Britain. The people demand a higher level of politics."

One does not know whether to admire most Sir Wilfrid'sadroitness in avoiding issues or his recklessness in statements. Fortunately in this particular utterance he has voiced one statement that can be nailed to the counter as absolutely false, and absolutely false as his knowledge. It is only necessary to take two of the definite and specific charges which have been made against the Laurier government and see consider what the attitude in Great Britain would have been, to show it what extent Sir Wilfrid's love of power has obscured his reasoning. The two charges that we refer to cannot be characterized as Tory slanders, but we say that these charges would have been sufficient to turn out the strongest government that Great Britain had ever seen. An under-spy of cordite when the late Sir Henry Campbell-Bannerman was secretary for war wrecked the Rosebery administration, the allegation of Chinese cheap labor sent the last Balfour administration down to unprecedented defeat; what then could have been the fate of a government that had the charges levelled at it which were embodied in the Marine and Fisheries Commission and in the scathing denunciation by Dr. Pringle of the administration of the Yukon? Sir Wilfrid Laurier knows well that either of these revelations would have driven the strongest government that ever existed in Great Britain from power in disgrace. The Civil Service Commission was composed of three ardent Liberals, the wisdom of the government, and they described a state of corruption and graft that must make all decent men wonder how much further maladministration can go. What these charges were made by Messrs. Campbell, Taylor and Bannan what did Sir Wilfrid do? In answer to public clamor he appointed

of Judge Cassels to investigate, but in order that no evidence damaging to the government should come before the judge he appointed two active political partisans to act as counsel. And in the face of this he had the audacity to say that his charges have been made against his government. In the Yukon the administration has been so disgraced that Dr. John Pringle, himself a lifelong Liberal, has been appealing for years, urgently, pathetically and privately, both to Sir Wilfrid Laurier and to the Ministers of the Interior, Sir Wilfrid and Mr. Oliver cannot escape responsibility for the terrible conditions in the Yukon. They have chosen deliberately and callously to ignore Dr. Pringle's appeals, and they have permitted to exist in Canada a state of affairs that the London Times, the greatest paper in the world, declared was an insult to the flag. It is well for Sir Wilfrid Laurier to find his flowery casuistry and his roundish sophisms an anathema to the audience, but every thinking man from the Atlantic to the Pacific knows that the condemnation from within the party are sufficient to send the Laurier Government to defeat, discredited and disgraced.

In the Bulletin of yesterday the following paragraph appears: "The item on the Bulletin on Saturday with reference to the cessation of the publication of a daily newspaper by the Strathcona Chronicle, also published in the Strathcona Plaindealer, has been referred to by Lowell & Allison, who wrote that 'the said paper has no intention of going out of business.' The terms of this withdrawal and its beguiling monitions will convince every right thinking man of the absolute want of fair play, of common decency that animates the Bulletin and its fool, the man McComb. Any respectable paper or any decent journalist on finding that they were mistaken in publishing a malicious untruth would have withdrawn in decent manner. The malice and the intention to injure shown by this man McComb are very obvious, but we presume that his policy is to make up sufficient attitude to get a job of some sort. We have no use for the type of creature, but we have the certain knowledge that their methods, although they may succeed for some time with a bigoted and unenlightened community, will never command the respect or the permanent support of an intelligent reading public such as is to be found in these parts."

Go to the blood, if you are to drive rheumatism. A Wisconsin physician, Dr. Sheop, does this with his Rheumatic Remedy—and with seeming success. Ruben-o, says the doctor, never did cure rheumatism. It is more than kin deep. It is constitutional always. Because of this principle, Dr. Sheop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Grateful patients gladly spread results. It is an act of humility to tell sick of a way to health. Tell some sick one. Sold by all druggists.

Moderer At Bay

We have been informed, although unofficially, that the police have located Thomas Oliver, the man wanted for the murder of Thomas Burns, and that his arrest is immediately expected. He is at bay in an Edmonton coal mine and has threatened to shoot the first man that approaches him. It is further announced that he has confessed the crime.

Around the City

Mrs. E. H. Christie will not receive again this season.

The Liberals held a meeting at Sandy Lake on Saturday evening last. There were four speakers including Dr. McIntyre and Premier Rutherford, and they addressed an audience of six. The election was indeed the first of Dr. McIntyre when they don't want to hear his views.

A very quiet wedding took place at the home of J. J. Hennessy, Whyte avenue east, this morning, when Mary J. Lynch, of Oshawa, Nova Scotia, was united in marriage to Alexander Matheson, of Calgary. Immediately after breakfast Mr. and Mrs. Matheson boarded a night 8:00 clock train for Vancouver, Victoria, San Francisco and the Pacific Sound. On their return they will reside in Calgary.

Dr. Wainwright has arranged with both parties that the only election returns will be received on Monday evening at the opera house. A programme of songs, music, etc., is being arranged, and nothing objectionable to ladies will be allowed on the stage. There will be smoking rooms for gentlemen wishing to smoke. The wrestling match which is to take place on that evening will be pulled off upstairs.

MARRIED

MARRIED—ON THURSDAY, OCT. 20, 1908, at the residence of J. J. Hennessy, Strathcona, by the Rev. D. McDonald, M. A., Ph. D., Mr. Alexander Matheson, of Calgary, Alta., to Miss Mary King Lynch, of Strathcona, Alta.

J. W. DAVIDSON is the Conservative candidate for the Strathcona riding.

KILLED HER FATHER

Taylor, Texas, Oct. 19.—J. W. Griffith, a white farmer, was shot and instantly killed by his 16-year-old daughter, Jessie. He was shot with a revolver. The girl was found threatening to kill him with a knife. She was arrested and is now in jail. The girl is a white girl, and is about 16 years of age. She is accused of killing her father.

TENDERS FOR CAR BARN.

Tenders are invited for the erection of frame car barns at Strathcona for the City of Edmonton. Lowest or any tender will not necessarily be accepted.

Plans and specifications may be seen at the Office of Rowland W. Lines, architect, Edmonton. Tenders to be sent in on or before Tuesday, October 27th.

THIRTEEN HUNDRED PERCENT.

Amoy, China, Oct. 19.—More than 1,300 Chinese died at a typhoon on Thursday at Chang Chai, according to dispatches received from there to-day.

Make This Up At Your Home

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription, which is said to be a positive remedy for kidney or kidney or bladder derangement, if taken before the stage of Bright's disease.

Field Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here, at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, as the mixture would be put up in a bottle for you. He stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney, urinary trouble and backache, as a powerful action upon the kidneys, purifying the blood, is its most important organ and helping the blood to filter out the waste matter which causes sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

Stomach troubles will more quickly disappear if the idea of treating with, rather than the effect, would be in mind, says Dr. Simpson, governor of the province. A city, inside, will give strength to the stomach. A ranch also goes to the heart, and on the kidneys. When these "kidney" troubles fall, then the organs must be restored. Dr. Simpson's Restorative is directed specifically to these ailments. Within 48 hours after starting the Restorative treatment patients say they live a gain. S. I. J. all delirious.

LOST—ON THURSDAY, OCT. 15 ON the road between Walter's Ferry and Strathcona, Black, four with two milk seals on each end. Finder rewarded on returning to Chronicle of file. 124-9

LOWE MYCURE TO ZAM-BUK

HAD PILES FOR 13 YEARS! PAIN SO BAD AT TIMES HE FAINTED

One of the best points about Zam-Buk is that it cures chronic cases of piles as well as those of more recent standing. Captain A. W. Strachan, R.E., of St. Catharines, (Ont.), a man who has served his country in India, China, Japan and Egypt, says: "Nobody has suffered greater agony than I have through piles. For near 13 years this terrible scourge afflicted me and at times the pain was almost too much for me to bear—especially when enduring the heat and fatigue of foreign duty. I think I tried almost every remedy known in India, China, Japan and Egypt. While in India I was in the hospital for three weeks with bleeding piles, and thought I would be compelled to give up the service. I have had to tell out on the surgery as I could not endure the pain any longer. Once I was picked up on the field for fainting—the pain from the piles was so great that I had fainted. "An Army officer told me about Zam-Buk having cured a friend of his, so I decided to give it a trial. From the first application of this great herbal balm, I was relieved, but even after using one box I hardly dared to hope it would cure me permanently. I had got so much relief from it, however, that I decided to persevere, and by the time I had used several boxes, to my great joy I was completely cured. "Zam-Buk is worth its weight in gold. It has cured me and given me now over six months of perfect ease—something which I have not had for thirteen long years! I trust this statement of mine will lead other sufferers to try Zam-Buk and prove its great healing virtue."

What Zam-Buk is, and What it Cures
Zam-Buk is composed of the essence and extract of healing herbs. It contains no gun and fat or mineral poison. It never causes raw skin or other ailments, never stains, never clogs the pores of the skin. It heals old sores, eczemas, chapped hands, ulcer, badly poisoned wounds, scalp sores, open sores due to blood poisoning, etc. It heals lacerations, lesions and all skin eruptions and diseases. All druggists and stores sell at 10c a box, or post free from Zam-Buk Co., Toronto, for price.

Free Box
